

MEDIA RESPONSE STATEMENT

FROM: CHERRY SPRINGS VILLAGE

DATE: April 5, 2020

RE: CORONAVIRUS (COVID-19) STATEMENT

A number of residents and staff members at Cherry Springs Village in Hendersonville have tested positive for COVID-19. Those individuals are being treated in isolation by health professionals and the community is under quarantine until further notice. Since early February, Cherry Springs Village has adhered to aggressive infection-control policies, in compliance with guidelines set by the CDC and the NC State Health Department. We will continue to work with the local health department in maintaining the health of our community. We appreciate the support of our families and the public at this time.
